OUR COMMITMENT

Lobosway Global Resources Limited was founded in response to emerging trends in the fast-paced Oil & Gas industry.

Our Management Team is comprised of professionals with expertise spanning multiple industries who have excelled in their respective fields. They also bring a diverse and excellent repertoire of experience gained through many years of operations and management in various sectors of the economy.

As a company that takes pride in being visionary and proactive, we have gradually developed our competencies and positioned ourselves in the industry by utilizing cutting-edge technology and a vibrant workforce.

As a result, we believe we are well on our way to making significant strides in the industry and becoming the service provider of choice for our clients.

We are an entirely indigenous company and a registered player in the Oil & Gas industry's Upstream, Midstream, and Downstream sectors.

OUR VALUES

Sustainability- We believe in protecting the environment and minimizing the carbon footprint of our operations. We are committed to promoting renewable sources of energy and reducing the impact of our business on the environment.

Innovation- We recognize the constantly evolving nature of the energy sector and strive to stay ahead of the curve by investing in cutting-edge technology and research. We continually seek innovative solutions to meet the energy needs of our customers.

Quality- We are committed to providing our customers with high-quality products and services that meet their needs and expectations. We ensure that all our products undergo rigorous testing before delivery and provide efficient maintenance and support services.

Integrity- We value transparency and honesty in all our interactions with customers, employees, and stakeholders. We uphold high ethical standards and take responsibility for our actions.

Customer satisfaction- We place the needs of our customers at the heart of our business operations. We strive to exceed their expectations by providing timely and efficient solutions to their energy requirements. We believe in building long-term relationships with our customers based on trust and mutual respect.

Introduction

Delivering quality results within project time lines.

How We are Different

Lobosway Global Resources Ltd is an indigenous company whose aim is to provide ENGINEERING SERVICES AND PRODUCTS to her clients in various areas of specialization in the Oil & Gas sector (Onshore and offshore), Engineering, Procurement and Construction (EPC), Civil/Construction, Mechanical/Electrical Installation/Maintenance, Machining Services, Provision of Oil Country Tubular (OCTG)/Threading, and supply chain management.

Lobosway Global Resources has been servicing the Oil and Gas Industries for years in various fields with her group of Experienced Engineers, Managers, Technicians and Skilled workers who are drawn from various disciplines of Engineering to form this strategic team.

At we committed to creating technical solution to problems envisaged with the help of our experienced team of engineers with safety and quality being an integral part of our everyday business. Lobosway was established to render world class services to the industries,

coupled with ability with our foreign partners for ease of procurement of materials from abroad in line with International Standard Organization (ISO) requirements.

Our strategy is to leverage our organizational competencies and wide network of resources to meet our customer's varying needs. Our products and services are aimed at complementing operational aspirations, making us the first and preferred option for our customers.

We commit ourselves to maintaining, wherever applicable, growing our dedication to operational safety and efficiency, social and environmental responsibility in both onshore and offshore operations, and complementary alliances with public and private entities.

As a company, we continuously strive for product and service innovation and diversity, not only to increase and stabilize our revenue base, but also to provide word class and personalized offers to industry practitioners.

ABOUT US

Lobosway Global Resources Limited is a wholly indigenous limited liability company duly registered with the Corporate Affairs Commission of Nigeria since 2008 with registration No. RC 729848 and is into Civil, Electrical and Mechanical Engineering works and services, procurement of Petroleum and related products, safety and industrial spare parts, materials and equipment, Equipment supply, Lease and Hire, Consultants, suppliers, etc.

Lobosway Global Resources Limited with her vast resources of quality and highly technical, managerial and Engineering human resources undertakes engineering, consultancy and supplies services to all sectors (public and private) of the economy, such as Government (Federal, State and Local Government Councils) and its Parastatals; Oil and Gas and allied industries, etc. Jobs/projects are carried out using modern and current methods/approach.

POLICY/MISSION STATEMENT:

Lobosway Global Resources Limited is committed to providing efficient, fast reliable and time-tested services to our numerous clients and customers.

In our effort to achieve the above stated objectives, we try as much as possible to put the safety of our personnel, equipment, protection of the environment of our clients and all concerned into consideration.

our values

•Excellence •Integrity •Respect •Openness •Value Creation

Core Values

As a preferred employer, we consciously develop human capital to build systemic insight, confidently engage customers in out-thinking challenges, ensure efficient implementation of project methodologies, create and capture value for the customer wherever feasible. Our team of technical and management experts are continuously equipped with sector knowledge and training relevant to their field of work.

Our Approach

We are oil and gas services provider, focused on offering timely and value-oriented life cycle solutions, anchored on service delivery.

Our Goal

Our end goal is to provide customers with market competitive rates on all our services, which are backed by our infrastructure, full operational capabilities and service efficiency, through a business friendly approach.

Our Vision

Our vision is to be as world class engineering, procurement, oil and gas servicing company known for the provision of innovative and cost effective engineering solution.

OUR PARTNERS

OUR CLIENTS

Our Value

We create, deliver and sustain premium value.

Our Mission

To be the indigenous company that provides high quality products and services that exceeds customer expectations without compromising safety and quality.

Integrity Policy

We do business with integrity, honesty and fairness which are fundamental and ethical.

Commitment To Work

We work with our partners to streamline project plans that don't just deliver on product perfection, but also delivers on time

Certified Company

Oil & Gas Service Provide in Oil & Gas Sector, with CAC with Registration number RC: 729848

Partnership

We build mutually beneficial relationships.

Our Services

We have actively offered offshore & onshore services, whereby efficiency and safety are our primary concern.

QA/QC Services Rehabilitation Upgrade

Q A / Q C i s t h e combination of quality assurance; the process or set of processes used to measure and assure the quality of a product, and quality control; the process of matching products and services to consumer expectations.

Our services within Quality Assurance & Quality Control cover:

- NDT Inspection
- Tubular Inspection
- Offshore Container Inspection
- Crane Inspection
- Proof-load test
- Technical Consultancy

We have a strong focus on keeping shutdown time to a minimum & all refurbishment work on schedule, which is why we offer precision 3D laser scanning & Survey as a basis for all our modification projects.

Our services within modifications cover:

- Pipeline Maintenance
- Minor Civil Work
- Drainage
- Rehabilitation/Upgrade of facilities
- Installation & upgrade of onshore facilities
- Onshore pipeline/Storage Facilities Maintenance
- Onshore & Offshore Scaffolding Erection
- Pressure Testing/Leak detection of vessels/pipelines
- Corrosion Control
- Pipe Pigging

Mechanical Services

Our Mechanical engineers use these core principles along with tools like computer-aided design, product lifecycle management to design and analyze plants, industrial equipment and machinery, heating and cooling systems, transport systems, robotics etc.

Our services within Mechanical Services cover:

- Mechanical Works
- Pipe Milling and Coating
- Onshore pipeline Laying
- Major Construction
- Refurbishment & Repairs of: Valves, Rotary, Crude & Water Pumps, Gas & Air Compressors, Mechanical & Electrical Installation.

Our Services

Fabrication Services

All work is carried out to the high standards demanded by today's industry, often to meet very tight delivery schedules. Our facilities cover welding of all grades of Carbon Steel, Stainless Steel, Duplex, Super Duplex, Titanium, Nickel and Copper-Nickel alloys.

Our services within Fabrication Services cover:

- Fabrication of Offshore & Onshore Structures
- Pipe System Fabrication
- Crossovers subs, Bull plug
- Pup joints
- Couplings
- Perforated Pup joints
- Flow Couplings

Electrical Services

All work is carried out to the high standards demanded by today's industry, often to meet very tight delivery schedules. We provide Specialized Electrical & Instrumentation services exceeding your expectations.

Our services within Electrical Services:

- Rewinding of electric motors
- Alternator
- Coils
- Etc.

Supply Services

We provide an equipment and material procurement and supply service to the oil & gas industry throughout Africa & the rest of the world, our role is to find & supply all the manufactured goods associated with the exploration and delivery of oil & gas. Our customers expect an exceptional level of service & we fulfil that expectation by delivering a reliable, honest, diligent & conscientious service that meets their specific demands.

Our services within Supply Services cover:

- OCTG Supply and Threading
- Mechanical Parts Supply
- Heavy Duty Equipment Supply/Leasing
- Valves, Nozzles & Flange
- Seals, O rings, bolts & nuts
- Lifting gears & accessories
- Welding equipment/ accessories / consumables
- Electrical Spare parts

Our Work

Fabrication

Our fabrication services include piping system fabrication, Onshore/Offshore structure, manufacturing, prefab & construction assemblies.

These services we provide improve capital effectiveness

We have gained expertise in providing Fabrication/Welding services to our clients both in onshore and offshore environment.

RFID & Asset Tracking Solutions for Oil & Gas

Asset management in today's oil & gas industry calls for RFID that rises to the challenge of operating in some of the toughest and most demanding sites on the planet. The stakes are very high not only for costs, compliance and margins, but also for ensuring personnel and asset safety and security.

Lobosway understands the challenges in the oil & gas industry and can help maximize your asset and inventory management capabilities in a robust, reliable and no-nonsense way. Having a 360° view of processes and equipment means traceability and certifications are kept up-to-date, allowing engineering, drilling or delivery operations to move forward.

Visualize an entire supply chain with our range of passive RFID tags for hazardous or standard conditions, or ask us to custom-design and build a pioneering, trustworthy solution that fits the most unusual requirements for the oil & gas sector.

Lobosway can rise to whatever technical challenge you have and produce innovations that elevate your definition of success, without the necessity of line of sight.

RFID & ASSET TRACKING SOLUTIONS

SMART TRACKING.
BETTER CONTROL.
GREATER ACCOUNTABILITY.

SMART ASSET VISIBILITY FOR MODERN OPERATIONS

Lobosway Global Resources Limited delivers practical RFID and digital asset-tracking solutions that help organizations identify, locate, monitor and manage valuable assets. RFID systems can automate identification and movement capture, reducing dependence on manual counts and improving operational visibility.

OUR SOLUTIONS

Asset Identification & Tagging

Durable RFID tags for equipment, tools, materials and inventory.

Inventory & Equipment Tracking

Faster stock verification, equipment checks and asset reconciliation.

Movement & Location Monitoring

Track asset movement between warehouses, facilities, departments and project sites.

Digital Asset Register

Centralized records for asset ID, location, status, ownership and maintenance history.

Illustrative RFID asset-location dashboard

BUSINESS BENEFITS

I Real-time asset visibility

I Faster inventory audits

I Better equipment utilization

I Automated movement alerts

I Reduced loss and misplacement

I Improved accountability

I Accurate asset records

I Multi-site asset control

Data and AI Solutions

Unlock the Power of Data and AI

In today's data-driven world, businesses that leverage data and harness the power of artificial intelligence (AI) gain a competitive edge. At Snapnet, we offer a comprehensive suite of Data and AI solutions designed to help organizations extract actionable insights, enhance decision-making, and drive innovation.

Our services include:

- Data Analytics and Visualization
- Machine Learning and Predictive Analytics
- AI-powered Automation
- Big Data Management and Processing
- Data Governance and Compliance
- Whether you're looking to optimize operations, personalize customer experiences, or uncover new revenue streams, our team has the expertise to turn your data into a strategic asset.

IT Outsourcing

Focus on Your Core Business, Leave IT to Us

Outsourcing your IT needs to Snapnet allows you to focus on what you do best while we handle the rest. Our IT outsourcing services are designed to provide cost-effective solutions that enhance efficiency, reliability, and scalability.

Our services include:

- Dedicated Engineers (Physical & Remote)
- Application Development
- Network Management
- Cloud Services
- Security Solutions
- IT Infrastructure Management
- With our proactive approach and round-the-clock support, you can trust us to keep your systems running smoothly, so you can concentrate on driving business growth.

Managed Services

Reliable Support, Proactive Management

Partnering with Snapnet for Managed Services ensures your IT environment is always optimized for performance and security. Our team of experts monitors, manages, and maintains your infrastructure, allowing you to minimize downtime and maximize productivity.

Our services include:

- Remote Monitoring and Management
- Patch Management
- Backup and Disaster Recovery
- Performance Optimization
- Security Assessments and Compliance
- From proactive maintenance to rapid response, we're dedicated to providing the support you need to keep your business running smoothly.

Provision of Fusion Welding on HDPE Materials

Lobosway Global Resources Ltd provide High Density Polyethylene (HDPE) pipes, piping and pipe welding machines for manufacturing Companies, Petrochemical, Food and drink, Construction Companies etc. Our HDPE Product includes, Pipes, Elbows, Tee, Reducers, Sockets, Flanges, HDPE Fusion Machines etc. both Electro, Butt and mechanical fusion types.

Refurbished 10" pig launcher/receiver

Wellhead Services

Our areas of core competence cover Wellheads completion, Workover & Maintenance Services. Lobosway has professionals who are senior maintenance personnel as specialized advisors. These professional engineers has extensive experience in day to day routine maintenance, shut down, planning, and establishing grass roots maintenance programming using the latest state of the art systems.

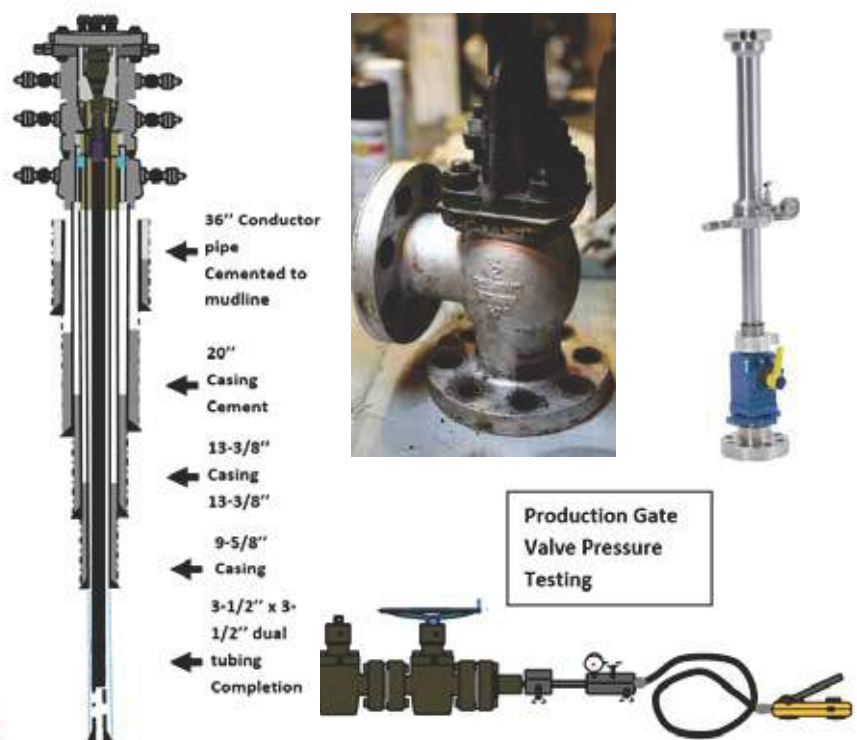

Wellhead Type:

Compact Wellhead System.

Typical Application:

For a Production Well.

Casing Program: 36" Conductor, 20" Casing, 13-3/8" Casing, 9-5/8" Casing and 3-1/2" Single Tubing Completion.

Refurbished Valves

Our Work

Machining Services

Lobosway Services is a major OCTG threading and supply indigenous company with international partner of OCTG manufacturer in oversea.

In Lobosway we have experienced expert in threading and manufacturing of complex mechanical parts for the Oil and Gas companies.

All manufacturing items such as Crossover with API connections, Lifting Sub, Bit Sub, UBHO, Flange with stainless steel ring groove inlay, Gauge Cutter, Cutter Knives, etc.

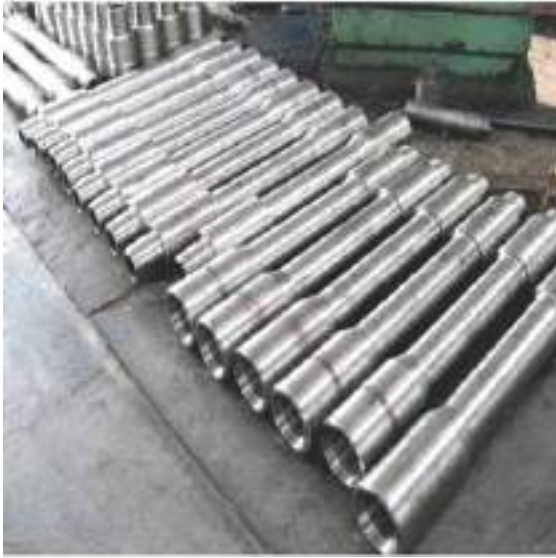

Repairing of all API connections recut, re-chase, reface and machining as per customer specification.

Fabrication of Mud Can, Tool Basket, Drip Containment Tray & Structural fabrication as per specification.

Machining of Critical Parts

Our Work

Pup Joints

Drill pipes for threading

6-5/8" Casing Pipes

Threaded Pup Joints

5-1/2" Coupling

Our Work

Tubular Inspection

Lobosway Global Resources Ltd carried out inspections in accordance with the relevant specifications applicable (API/DS1/NS1) for drilling equipment and tools.

SPEC API 5CT, RP 5A5, 5B, RP 5B1, RP 5C1 and SPEC DS 1

All our personnel are certified in according to ASNT for NDT inspection activities

Inspection of drill collars

Cleaning of 9-5/8 Casing pipe for Inspection

NDT Services

We provide Radiographic, Ultrasonic, Magnetic particle testing, Liquid Penetrant Testing, Hardness Testing, PMI, Pre & Post Weld Heat Treatment, Ultrasonic Thickness Measurement.

Ultrasonic flaw detector

Magnetic Particle test

Finished MPI on offshore Structure

Troubleshooting and repairs of Electrical Instrument Control system

Troubleshooting of electrical Panel

Replacement of instrument control system

Lobosway Global Resources Ltd is a leading service provider of submersible pump, Electric motor rewinding and repair company that put all damaged pumps and motor back running.

Electric motors under rewinding

Our Work

Manpower Supply

Lobosway Global Resources Ltd have strong relationship with experts in every area of skill set for the Oil & Gas, Energy Industry. Our ever growing database of expert manpower can be deployed on a technical service contract basis to support all Brownfield and Greenfield projects regardless of their size.

Among the skills set that we provide are follows:-

- Quality Assurance Managers & Project Engineers
- Safety Managers
- Certification Engineers
- Material Engineers
- Lead Auditors
- Inspector Engineers
- Pipeline Engineers
- Welders
- Fitters
- Instrumentation Engineers
- Integrity and Asset Management Specialists
- Non Destructive Testing Technicians
- Corrosion Engineers & Inspectors
- Welding Engineers and Technician

PROCUREMENT

OVERVIEW

Procurement Function has always been part of LOBOSWAY from inception because it started operations as a trading outfit. This has imbued the company with a lot of experience in procurement activities.

Materials Management Department is LOBOSWAY center-led procurement organization, providing strategic sourcing and tactical buying services for goods and services in support of LOBOSWAY projects nationwide and clients' procurement needs. Using advanced sourcing methods, global market knowledge, and LOBOSWAY's global volume purchasing, Materials Management Department seeks to obtain the best pricing, quality, and service available for our clients.

These services are delivered through world-class procurement professionals who work in focused knowledge communities, with advanced systems and work processes, and provide unmatched value in the global building and services marketplace.

LOBOSEAY offers significant advantages through our superior breadth and depth of resources and our integrated engineering, procurement, construction, and maintenance approach to large and small projects.

Our professional integrity, our “best-of-class” systems, our cost and schedule focus, and our knowledge-based information sharing provide project execution consistency to customers across multiple industries.

We maintain a dedicated staff of experience professionals in various fields, including

- ☐ Global sourcing specialists
- ☐ Commercial and technical commodity specialists
- ☐ Market specialists
- ☐ Contract specialists
- ☐ Material planning and control specialists
- ☐ Buyers
- ☐ Expeditors
- ☐ Logistics specialists
- ☐ Supplier quality surveillance specialists
- ☐ Project Materials Managers
